## PROFESSIONAL SUMMARY

---

- Computer Science student (6th Semester) at Sukkur IBA University with strong foundations in data structures, algorithms, and software engineering. Experienced in Flutter and full-stack development. Currently exploring cybersecurity, penetration testing, and secure backend systems. Seeking a technical internship to apply skills in real-world projects.

## EDUCATION

---

### Sukkur IBA University

B.Sc. Computer Science (6th Semester)

Focus: Cybersecurity, Data Structures, Machine Learning

2023 – Present

Sukkur, Pakistan

### Government Polytechnic Institute (Boys)

Diploma in Information Technology

2020 – 2023

Sukkur, Pakistan

## TECHNICAL SKILLS

---

- **Programming:** Python, Java, C++, C, Dart, JavaScript
- **Mobile Development:** Flutter (Intermediate), State Management, API Integration, UI Design
- **Web/Full-Stack:** HTML, CSS, React.js, Node.js, REST APIs, Secure CRUD Operations
- **Databases:** MySQL, SQLite, Firebase
- **Cybersecurity:** OWASP Top 10, Secure Coding, Networking Basics, Penetration Testing (Learning)
- **Data Science & AI:** Pandas, NumPy, Scikit-Learn, EDA, Basic Predictive Modeling
- **Systems & Concepts:** Distributed Systems, Real-Time Systems, Cryptography (Learning), Secure Development Practices
- **Tools:** Git, GitHub, Postman, VS Code

## PROJECT EXPERIENCE

---

- **Flutter Cross-Platform Applications** – Developed 3+ mobile apps using Flutter & Dart, integrating APIs and state management to enhance user engagement and app performance.
- **Data Analysis & Machine Learning Projects** – Conducted exploratory data analysis on multiple datasets and built predictive models, improving insights and decision-making accuracy.
- **Cybersecurity Exploration** – Practiced vulnerability assessment and secure coding in controlled labs, focusing on OWASP Top 10 and penetration testing fundamentals.
- **Secure Full-Stack E-Commerce Web Application** – Built a React.js + Node.js + MySQL app with authentication, role-based access, and secure CRUD operations, enhancing system security and scalability.

## CERTIFICATIONS

---

- Mobile App Development (Phase 1, Batch 2) – PITP Program, Sindh Government, 2023
- Cybersecurity & Ethical Hacking (Phase 2, Batch 1) – PITP Program, Sindh Government, 2023
- IT Security: Defense against the Digital Dark Arts – Coursera/Google, 2024
- Introduction to Generative AI – Coursera/Google Cloud, 2024
- System Administration and IT Infrastructure Services – Coursera/Google, 2024
- Introduction to Python – DataCamp, Jul 2024
- Introduction to Statistics in Python – DataCamp, Oct 2025

## TECHNICAL EXPERIENCE

---

### Academic & Independent Development Work

2023 – Present

#### *Full-Stack & Flutter Projects*

- Developed web and mobile applications as part of coursework and independent projects.
- Applied structured problem-solving and clean coding practices in project implementations.
- Used Git and GitHub for version control and project management.
- Focused on performance, security awareness, and scalable system design fundamentals.

## ACHIEVEMENTS

---

- SEEF Merit Scholar – Sukkur IBA University (Top 5% of class)
- Prime Minister's National Merit Awardee – Laptop Scheme
- Volunteer at Amn Bethak (Aug – Nov), organized tech awareness workshops for 50+ participants

## AREAS OF INTEREST

---

- Mobile App Development (Flutter & MAD)
- Data Science, AI, and Machine Learning
- Cybersecurity, Penetration Testing, Secure Coding Practices
- Full-Stack Web Development and Scalable Systems
